Dear Folks,

I called last week about our property at 4050 Larkspur Lane. We rented out the trailer to Maria Hidasy and We went up to check on property and the place was covered with cars. I don't know if they are running or not and I do believe that makes a difference.

We want the cars removed. She didn't ask to put them there or We would have told her no.

We hope you may have a law like Missoula County where We can get them removed. I'm sure none of them have titles or licenses.

Please advise - We sure don't like to see junk in our area and don't really like our property covered with junk up there.

Thanks - Please advise 406-626-1535
