Phone Numbers
FOR LM FSS 3-20-...

We continue to see a problem in trying to issue NOTAM's with the new AFSS system. Problems such as connection, unfamiliar with the terminology, and no follow-through persist.

Attached information again provides the new toll free number but also listed is the direct line to others, including supervisors, in the three remaining AFSS's that cover the entire US.

We highly recommend that you don't wait until the last minute to file a NOTAM. Make sure you document every step taken: time sent, who contacted, and exactly what was in the NOTAM - then follow up and see if it was ever issued.
