Hello, I would like to introduce myself. My name is Carrie Gross and I would like to know who I can contact to let know how incredibly irritating it is to have no Animal Protection and Control officer in Ravalli county.
I would like to invite the commissoners Alan Thompson, Greg Chilcott, Jim Rokosch, Kathleen Driskoll, and Carlotta Grandstaff to my house. You are all welcome to visit because it is only then that you will understand what it is truly like to live life next to someone whose animals smell of urine and feces, not to mention the non-stop barking.
Oh, I am aware that purchasing a piece of property next to a kennel/boarding dog facility is a disaster waiting to happen, however, it is something I could afford.
I believe noise pollution is a valid complaint, along with the health issues regarding the cleanliness of the facility, along with animal neglect. These animals are in Kennels all day, no exercise, no human interaction other than their desperate barking at all hours of the day, all the while no one seems to rescue them.
I am not an animal rights activist, I just want some resolution to this issue. If someone could please help it would be greatly appreciated.
Sincerely,
Carrie Gross
