RE: Storage Units on Rickets Rd.

I would like it to be known that I am very much against any storage units being built in a residential neighborhood. Storage units are very plainly a business and do not belong next to homes in a well established neighborhood. Homes are Homes a Business are Business! Furthermore I would worry about the value of the surrounding properties. Have they been notified? Should they have a say in the matter? I understand work is already in progress and I believe it should be stopped.

Sincerely
Nancie Schumacher
