Subject: Safety compliance @ Ravalli County Airport

Dear Commissioners:

Please reference the Letter to the Editor written by Frank Dodge in the Ravalli Republic, February 26, 2009.

I don't know Frank Dodge, the author of today's letter to the editor entitled "Meet the FAA safety standards." Mr. Dodge couldn't have stated the issue more clearly. I wish I would have written the letter myself.

I have been involved in getting our airport into compliance with FAA SAFETY standards, protecting the airport from incompatible development, and insuring future FAA funding for the past eight years or so as an Advisory Board member. Mr. Dodge summed up what we have been working towards for all these years.

For safety's sake and the future good, we need to all support option four of the EA. The EA needs to be approved as soon as possible so that we can show the FAA that Ravalli County is ready to start on our path to compliance with their safety concerns.

Sincerely,

Fred W. Hasskamp
